

From Now On (Demo)

Delta Spirit

Down in Reseda where I left my keys
You picked them up and stepped right in
I had a vision about this very thing
But it's probably in my head From now on, from now on
From now on I'm gonna be your friend Your inner compass says you know I'm right
No more letters, just a will
All the prophets on the mountaintop
But no one's hanging on the hill From now on, from now on
From now on I'm gonna be your friend Something put you in my way
May the moment awake in your head
Fall in to the what is
Let your body do all the rest
May a love never break you
May a love never break you
Keep your heart on your sleeve now
Don't let anyone else tell you different From now on, from now on
From now on I'm gonna be your friend
