

# Forbidden Fruit

[Nik West](#)

Forbidden FruitVerseGet outta my dreams, you know I can't control the feeling

This chemistry, has got me going crazy

I Can't play this game with you, because I know I'll lose

Not strong enough to fight the truth, that Im feelin youCHORUS

Forbidden Fruit

Get outta my view

I belong to another and my heart is true

Forbidden Fruit

Let me be

Free me from this hold you have on meForbidden Fruit

You give me satisfaction

Trying to find a way to stop the attractionForbidden Fruit

Just the thought of you

Is like a sweet tabooGot me going crazy

Got my mind flooded with maybes

I can't share my heart with you

Cuz, baby, you're forbidden fruitVerseDon't call my phone. Your voice makes me feel all right

Leave me alone, your conversation soothes my mind

The way you look at me, has me so in tune with you

Not strong enough to fight the truth, that Im feeling youVerse

Let me tell you whats on my mind

Cuz you been talking all this time

This feeling I feel for you

Makes me want to get close to you

And if your man was doing his job (work)

You wouldn't be thinking bout me

But I'll sadly leave the situation

Cuz I know where this thing can lead
