Tied Up

Exaile

Twist of Fate
Olivia Newton-John
(KipnerBecket)
Do we deserve a second chance?
How did we fall into this circumstance?
We weren't so straight and narrow
This is much more than we deserve
A higher voice has called the tune
Two hearts that lost the beat will now resume
The gift of life extension
By divine intervention
It's gotta be a strange twist of fate
Telling me that Heaven can wait
Telling me to get it right this time

Life doesn't mean a thing
Without the love you bring
Love is what we've found
The second time around
Don't understand what's going on
Woke up this morning, all the hurt was gone
This is a new beginning
I'm back in the land of the living
It's gotta be a strange twist of fate
Telling me that Heaven can wait
Telling me to get it right this time
Life doesn't mean a thing
Without the love you bring
Love is what we've found
The second time around
