

Where the Hell Is Henry?

Chuck Prophet

Where the hell is Henry?
Where's he gone?
I gotta find my brother
I gotta bring my brother home Someone picked him up
carried him right outta here
Someone picked him up
like he was never there
Ah ... I don't know
I held a picture and it came to life
My hand was as small as this
Oh no ... don't leave me here alone Where the hell is Henry?
Where's he gone?
I met him at a party
Henry took me home Henry worked the room like a Kennedy, son
He'll make you feel like family before he's done
Ah ... I don't know
I was a dancer and I played a part
My head never fit the wig
Come on
Ah, don't leave me here alone
