

Can You Heal Me

Soil

Life is so fragile like a trembling leaf
Time passes slower with each day of misery Things aren't so bad Hey can you heal me?
Hey, listen to me
Time fell down my crippled well
And I get what I deserve
Hey, listen to me Focus on your pain nothing else remains
How would you answer if I did the same Things aren't so bad Hey can you heal me?
Hey, listen to me
Time fell down my crippled well
And I get what I deserve
Hey, listen to me I get what I deserve, yeah
I get what I deserve, yeah Before I cut my skin
You need to look deeper within Hey can you heal me?
Hey, listen to me
Time fell down my crippled well
And I get what I deserve
Hey, listen to me, yeah
