

# Pixie Dust

## Ruby Summer

It's cold tonight in the hallow  
And the clouds have all gone grey  
Sprinkle me with pixie dust  
Sprinkle me with pixie dustI hear the sound of a swallow  
And I want to fly away  
Sprinkle me with pixie dust  
Sprinkle me with pixie dustI know I should not ask  
For all my dreams to come true  
Won't you help me grow my wings  
So I can fly away  
With youSprinkle me with pixie dust  
Just a little pixie dust  
Go dancing through the meadow  
Underneath the sun  
Racing through the fields before the raindrops come  
Pixie dust  
Sprinkle me with pixie dustI'm dreaming someday soon  
That we can circle around the stars  
Floating hand in hand  
I want to be with you  
Wherever you areSprinkle me with pixie dust  
Sprinkle me with pixie dustIt's cold tonight in the hallow  
And the clouds have all gone grey  
Sprinkle me with pixie dust  
Sprinkle me with pixie dustI hear the sound of a swallow  
And I want to fly away  
Sprinkle me with pixie dust  
Sprinkle me with pixie dustWe'll go dancing through the meadow  
Underneath the sun  
Racing through the fields before the raindrops come  
Pixie dust  
Just a little pixie dust
