

Coffee Shop Love (feat. Golden)

Ryan Higa

[RYAN HIGA]

Oh, you caught my eye
You got that thing I like
Never been in love
But I think I might
Be fallin'

For you (you, you, you) Like love at first sight

Knock me off my feet

You're just my type

Tall and skinny

Yeah, you're stirrin' me up

But it's bitter sweet

Because I got one,

but you're all I see, I see But I never thought I'd ever wanna leave the cold

Even though my heart's been frozen time to let it go

And let you know that

You're the missing piece I needed to feel whole [JOSH GOLDEN]

I got that coffee shop love

Makes me express so many feelings

With that coffee shop love

Oh, you got my heart racin', racin' All my life I've been searching

All my love, where have you been?

With that coffee shop love

Oh, I can't get enough of it [RYAN HIGA]

Girl (hey pretty)

Please don't make me beg, oh

There's nothing wrong

With sharing at all

I promise you

I'll sip just a little

It's the best of the best like

Star of the Bucks, the Big O And I'd do anything

That I have to do

Read a book with you

Study with you

Listen to Chris Brown With you I'm all ears

When you need to venti

I'm all the way, right there,

Ariana Grande And I never thought I'd ever wanna leave the cold

Even though my heart's been frozen time to let it go
And let you know that
You're the missing piece I needed to feel whole[JOSH GOLDEN]
I got that coffee shop love
Makes me express so many feelings
With that coffee shop love
Oh, you got my heart racin', racin'All my life I've been searching
All my love, where have you been?
With that coffee shop love
Oh, I can't get enough of it[JOSH GOLDEN]
Baby after all this time
I was looking in the wrong place
It was never about the drink
It's about your tasteGirl you keep me up
Real hot and steamy
I'm real lost without you
All I have is a cold.. *cough* coffee..[JOSH GOLDEN]
I got that coffee shop love
Makes me express so many feelings
With that coffee shop love
Oh, you got my heart racin', racin'All my life I've been searching
All my love, where have you been?
With that coffee shop love
Oh, I can't get enough of it
