

# Music & Me

## Michael Jackson

We've been together for such a long time  
Now music, music and me  
Don't care whether all our songs rhyme  
Now music, music and me Only know wherever I go  
We're as close as two friends can be  
There have been others but never two lovers  
Like music, music and me Grab a song and come along  
You can sing your melody  
In your mind, you will find  
A world of sweet harmony Birds of a feather will fly together  
Now music, music and me, music and me
