You Call Me

Myron Butler & Levi

Before the World is Framed
Before the time begin
You knew my name
And the love you had for me will never change
Your grace covered me
When I could not see
My purpose and my plan
You know me
You loved me
More than I could ever imagine
You called me what I shall be until I become become what you called me
You called me friend
Bid me come in
Mercy gave freely
You know me
You loved me
More than I could ever imagine
2x You called what I shall be
Be
5x You called me called me what I shall be
Once I have become what you called me
