

Across the Great Divide

The Band

Over mountains
That's where my love lives
A long, long ride to sunland
Here, where I did this
Across the great divide alone
Wondering, open, afraid and
Arriving alive, unknown
Unknown, unwise and unaided
If I could, I might
Send my love on a plane ride
A black cross high in a blue sky
A green cross gliding on a million pines
Across the great divide alone
Wondering, open, afraid and
Arriving alive, unknown
Unknown, unwise and unaided
Across the great divide alone
Wondering, open, afraid and
Arriving alive, unknown
Unknown, unwise and unaided
Across the great divide alone
Wondering, open, afraid and
Arriving alive, unknown
Unknown, unwise and unaided
Across the great divide alone
Wondering, open, afraid and
Arriving alive, unknown
Unknown, unwise and unaided
Across the great divide alone
Wondering, open, afraid and
Arriving alive, unknown
Unknown, unwise and unaided
