

Terrible Town

Olin & The Moon

Walking counterclockwise around the bar
See if i go fast enough, i can make the world stop
When i do i will be able to talk, if i can just say enough
I can speed the world back up

But i love when its quite and no ones around
I hear the neighbor humming and the airs making sounds
And I'm stuck in the corner of a terrible town
Yea maybe i stopped the world but everyone found out
And now their mad as hell

Yea their mad as hell

And maybe if i play soft enough
Everyone will just shut up and i will make this room stop
And when i do the band come on
And the kick drum will start the song
And weâ€™ll speed this place back up

But we love when its quite and no ones around
We hear the neighbor humming and the airs making sounds
And weâ€™re stuck in the corner of a terrible town
Yea maybe we stopped the world but everyone found out
And now their mad as hell
Their mad as hell

And now we hate being quite, weâ€™d rather be loud
Because no one understands is in this town
So lets turn it up boys and make momma proud
Yea we will stop the world and everyone will find out
And they can all go to hell
They can all go to hell
