

Delta 1406 (Urban Noize Remix)

[Mike Posner](#)

I can't come down
Not today, I feel alright
They believe every word I say And it seems so jaded
Every place I go feels so jaded
There's people all around but I'm all alone The clock in my head won't stop tickin', tickin'
The phone in my hand rings all day long
I've been in L.A almost 5 months now
I'm trying to pretend that it feels like home oh, oh Maybe I flew to far
Shooting stars leave no mark I can't come down
Not today, I feel alright
They believe every word I say And it seems so jaded
Every place I go feels so jaded
There's people all around but I'm all alone I know my dad only gotta few years now
He's gonna cry when he hears this song
And things with mom have become so weird now
I gotta book hotels for my Detroit shows oh, oh Maybe I flew to far
Shooting stars leave no mark I can't come down
Not today, I feel alright
They believe every word I say And it seems so jaded
Every place I go feels so jaded
There's people all around but I'm all alone
