

# Excited

## Tyrese

(verse 1)

I wish that I could explain it, just why my heart won't slow down  
Girl your body so amazing, tryna chill but I don't know how  
Call me crazy but I know it's love is what I'm feelin'  
Just one simple touch is more then enough to get me goin'

(Chorus)

Something about you gets me so excited  
When I'm around you, I just cannot hide it  
Try to hold myself, but I just can't fight it  
One look in your eyes and baby I'm excited

(verse 2)

Say it's the way you move, your smile, your hair (everything about you)  
To feel your kiss it makes it worse (what I gotta go through)  
Said I'm bugging out everytime we hangin'out  
Cuz it's in my mind so bad I wanna lay you down  
Got me trippin, flippin'plans around (So I can chill with you)  
Baby listen here can't hold it back gotta (know what I gotta do)

(Chorus)

Something about you gets me so excited  
When I'm around you, I just cannot hide it  
Try to hold myself, but I just can't fight it  
One look in your eyes and baby I'm excited

(Bridge) x4

Look at me it's clear to see  
its you and me  
Just wan't to make you scream  
Let me make you scream

(Chorus)

Something about you gets me so excited  
When I'm around you, I just cannot hide it  
Try to hold myself, but I just can't fight it  
One look in your eyes and baby I'm excited

(verse 3)

I'm so excited  
ooooooh  
baby im excited  
and I just cannot hide it (no no)  
and I just cannot fight it

baby I'm excited  
said it's something about you  
yeyeyeyeeeyee
