Life Underwater

Flagship

Hey sister, don't you want to get away?
Get out from under the Brooklyn spell.
Now old man, dust away the cobwebs,
see another side for your health, before your all fucked up.How long can you live underwater, I wonder how long can you live underwater.
You can't, You can't, You can't. Hey.Now girlfriend, I see you're always crying for another chance to mend, but in the nightmare, I saw you coming for me, from the other side.
Now I'm all fucked up.How long can you live underwater, I wonder how long can you live underwater.
You can't, You can't.How long can you live underwater, I wonder how long can you live underwater.
You can't, You can't, You can't. Hey.Then the life boat sank, and we drowned in the Hudson bay.
Did your life boat sink, or did it carry you all the way,
and your heart of hearts it doesn't matter either way, when you're going under.How long can you live underwater, I wonder how long can you live underwater.
You can't, You can't.How long can you live underwater, I wonder how long can you live underwater.
You can't, You can't, You can't. Hey.
