

Afraid Not Scared

[Ryan Adams](#)

Look at this ocean with everyone drowning
Idiots screaming and everyone sinking in slowly
We're surrounded In the yellow lights of the city, wasted as bodies
In bed with somebody, a touch away with nothing to do
We're surrounded And I'm really dying in here, I'm really dying in here
And I'm afraid, no, I'm scared She started freezing, lungs are collapsing
The momentum is passing but the moment is eating us whole
We're surrounded Put the guns in the water, they're turning to vodka
Triggering nothing, we're sinking, the sea takes the ship And I'm really dying in here, I'm really dying in here
And I'm afraid, I'm afraid, no, I'm scared, no, I'm scared
I'm just scared, just let me down I'm getting really cold and I'm looking at you
You're not moving
I'm getting really cold and I'm looking at you
You're not moving
I'm getting really cold and I'm looking at you
You're not moving
