

# In the Forest

## GOJIRA

I want to live in the forest  
Between the roots and the branches I lay  
On the moss I sit, I want to rest by the river I want to live in the forest forever  
The power of trees, I want to feel forever  
Connection with life, animals, and stars Between the roots and the branches I lay  
Meditate the light wide open to the stars  
Speak of the whales, deep in the oceans  
Speak to the planets, deep universe
