

# Still Believe in Love

[jacksoul](#)

She left with all of her clothes and all  
She walked with all my CDs  
She was too small to take the big screen  
So she took all my DVDs, yeah, yeah, oh I swear the woman went crazy  
Cussin and yellin at me  
I tell you nothin's gonna break me  
As long as I still believe, yeah, yeah  
That's why you got to know..I still believe in love, yeah you know  
I still believe in love, girl you know  
I still believe in love  
Yes I do, just not with you She call me all kinds of names and all  
She cuss me right where I stood  
She said she no longer loves me  
She call me triflin and no good I didn't open my mouth at all  
There wasn't nothin to say  
If it's not written in the stars girl, no, no  
I won't beg you to stay  
But you know I'm gonna make it 'cause..I still believe in love, yeah you know  
I still believe in love, don't you know  
I still believe in love  
Yes I do, just not with you I keep it real because..I still believe in love, don't you know  
I still believe in love, awe, you know  
I still believe in love  
Yes I do, just not with you Now, now, now sugar no way  
I still believe in love,  
I still believe in love,  
I still believe in love,  
Repeat
