

Canadian Cry

Shawnee

Verse 1

Remember when you took a chance
You took away her home
Another night another life
Lost along the road

Young girl, fifteen
A life she never chose
A long night, a lonely life
Nobody knows

Chorus

She said
Listen
Let's pretend
She was afraid
Would you
Hear her cry
Alone at night
Cause' she never had a chance
Close your eyes
Remember why
Remember where you stand
Ohhh...
My home in nature land

Verse 2

There was a time
A simple life
And you knew best
Here we are
A daughter's cry
Taken by a man

And here tonight
Another life
Mmm...what a mess
Open your eyes
And see the light

It needs to be addressed

[Repeat Chorus]

Bridge

How can you sleep at night
When she's all alone
How do you
Survive
When another girl is gone
How do you lay your hand down
And close your eyes
Without another child

Verse 3

Young girl fifteen
A life she never chose
A long night
A lonely life
Nobody knows

Chorus 2

And she said
Listen
Let's pretend
She was afraid
Won't you
Hear her cry
Alone at night
Cause' she never had the chance
Close your eyes
Remember why
Remember where you stand [Hold the note on stand]
[Background singers - Ohh...]
My home in nature land
