

Heaven's Pearls

Ollabelle

Life's a strain, painful thing
To be overcome
We mark the nights by our triumphs
Suffers everyone But hold them near
Keep them dear
Don't be ashamed Triumphs of the world
On heaven's pearls
On heaven's pearls Began the scars, tangled bars
Catch under the skin
Friction burns as they turn
Working deeper in And day by day
Sharp edges fade
Smooth, furnished and fine Triumphs of the world
On heaven's pearls
Triumphs of the world
On heaven's pearls
On heaven's pearls Triumphs of the world
On heaven's pearls
Triumphs of the world
On heaven's pearls The triumphs of the world
On heaven's pearls
