

# You And I Again

James Taylor

You and I Again  
These Days go by  
And I wish that I could slow the whole thing down  
Have it all back again  
Just One more time  
Then again maybe we can't  
cause I can't escape this feeling  
that we've been this way together  
You and I  
There You are again  
I climbed so high  
High enough to finally see your side  
Shining in the distance  
You were tending your own fire  
We were biding our time  
Both of us waiting for the moment when our backs would come together  
You and I see how fierce You are  
Never this world would drag us down  
How serious You are  
Standing on Holy Ground  
And so Although I know we are only small  
In the time We have here  
Maybe We have it all  
I see how fierce You are  
Never this world would drag us down  
How serious You are  
Standing on Holy Ground  
And so Although I know we are only small  
In the time We have here  
This time we have it all  
You and I again  
This time, This time
