Must Kill

Cavalera Conspiracy

You must kill, another body killed
We must kill, another blood is spilled
You must kill, another soul is ill
We must kill, another life killed

We must kill, another deadly sin
You must kill, another orphan land
We must kill, another atrocity
You must kill, another misery
You must kill, and blood will follow
We must kill, there?s no tomorrow
You must kill, death will follow
We must kill, there?s no tomorrow

[x4]
Judgment, torment, execution

You must kill, this is not a drill
We must kill, this is for real
You must kill, another body ill
You must kill, another blood is spilled

[x4]
Judgment, torment, execution

Um, dois, treis, quatro...

[x20]
Must kill
