Nothing

Unloco

I've got nothing left for you to take away
I know ya blame me for everytime you walked away
So look back don't turn away
So what ya hate me and everything I seem to do
It was my face that you were lying to
And in my life you can find everything ya wanna take awayI got nothin
And in my life you can find everything ya separate
I got nothin
I got nothin
I got nothin
I got nothin
I got nothinSo look back dont turn away
So what its not the same every word out your mouth is shit
And in my life you can find evrything you wanna take away
I'm sick, I'm through, and I'm fed up with this
And in my life you can find everything ya separateI got nothin
I got nothin
I got nothin
I got nothin
I got nothinI got nothin
You saw the door as everything ya separate
I know
I know
You give what you take away
So what you hate me and everything I seem to do
I know ya blame me for everytime I walk out on youI've got nothing
I got nothin
I got nothin
I got nothinI got nothin
I got nothin
I got nothin
