Until You Find Out

Ned's Atomic Dustbin

All you need to is catch me
When I'm back on the real scene
And all the things that I don't do
Just make me laugh because they irritate youWhat you don't know
Ain't gonna hurt you while you don't know
And what you can't see
Ain't gonna kill you until you find outI think we're all tarred with the same brush
It's not so easy to get in between us
I think we're tired of the same things
It's like being locked out when the phone ringsAnd what you don't know
Ain't gonna hurt you while you don't know
And what you can't see
Ain't gonna kill you until you find outWhat you don't know
Ain't gonna hurt you while you don't know
And what you can't see
Ain't gonna kill you until you find out
Until you find out
