Random Thoughts

Glenn Lewis

Girl I love just having you around
Every time I think of you it makes me spark
Outspoken in some ways another's shy
You can't cook that well but I love it when you try
And there's half of me that wants to explainEverything I'm trying to say
'Cause I'm limited in characters
To express what I'm feeling[Chorus]
So hash tag these random thoughts
Of my heart, I'm in love with you baby
So hash tag these random thoughts
Of my heart, I love loving you baby
It's all about you
I'm talking about you
It's all about youI'm watching Marvin reruns laughing and thinkin' of you
And I'm wondering if you're somewhere doing the same thing too
Kissing you is my trending topic
You're the link to my profile pic
I'm hoping you retweet this subject
So I can see how your followers commentI can't express
Everything I'm trying to say
'Cause I'm limited in characters
To express what I'm feeling[Chorus]
So hash tag these random thoughts
Of my heart, I'm in love with you baby
So hash tag these random thoughts
Of my heart, I love loving you baby
It's all about you
I'm talking about you
It's all about youYou are the source of my random thoughts
So I only love going for you
For everyone that's waiting I've got to tweet it
'Cause my heart belongs to you
You're like everything that I post
You're the butter to my jam and toast
And if you find time to beat my timeline
You can tell what I love the most[Chorus: x2]
So hash tag these random thoughts
Of my heart, I'm in love with you baby
So hash tag these random thoughts

Of my heart, I love loving you baby
It's all about you
I'm talking about you
It's all about you
