

Me Myself and i (Andrew Friendly Vocal Mix)

Darren Hayes

I'm gonna reel in, deja vu feeling
We've been together in another life
Got me extending, that network's ending
The future echoes with your memory Now darling, I don't know what the future will bring
But I am willing to sing till I drop
Now baby, I don't know how it happened to be
But when we met it was like future shock Tell me what to do, me myself and I
It's gonna take a time machine to get it right
And it's so cruel, I wanna take you home
I'm gonna speed those hands of time right up
So I don't leave here all alone The death of romance, thought there was no chance
Then you appeared right in front of me
I got to thinking, loneliness sinking
I felt the cloudiness come over me Now darling, I don't know what the future will hold
But I'm not willing to do as I'm told
Now baby, I don't care how it happened to be
I see my future, it's right before me Tell me what to do, me, myself and I
It's gonna take a time machine to get it right
And it's so cruel, I wanna take you home
I'm gonna speed those sands of time right up
So I don't leave here all alone Did you ever get the feeling that the universe is leaning
It's accelerating, it will never stop?
Did you ever wonder if the number one divide by zero
Is infinity and if that's the case then what? If imaginary numbers are abstractions of the real thing
Then could someone make the clock of time stop?
If we were always meant to be together like forever
Then it must have been the future shock I don't know what the future will bring
But I am willing to sing till I drop What to do? Me, myself and I
It's gonna take a time machine to get it right
And it's so cruel, I wanna take you home
I'm gonna speed those sands of time right up
So I don't leave here all alone I don't know what the future will bring
But I am willing to sing till I drop
(Gonna speed those sands of time right up)
Oh darling, I don't know how it happened to be
But when we met it was like future shock What to do? Me, myself and I
It's gonna take a time machine to get it right
And it's so cruel, I wanna take you home
I'm gonna speed those sands of time right up

So I don't leave here all alone
