

# Remnants (Remastered)

## Cancerslug

i remember judgement day  
i remember angel screams of pain  
and i remember things that never go away  
i remember things of fury and of pain  
i remember judgement day  
i have only to focus on the pain  
i remember sacrifice  
i remember dark desire  
and i remember being cast into the fire  
burning from the desire to be broken and splintered and torn asunder  
i have only to focus on my pain
