Hanging from Above

Figurines

Hanging from above,
The only signs of what's to come,
Standing down to free you,
So did the days that came along.Have you always been
Someone that you've never been?
I know every part you're so thrilled
At the end of season so alert.Falling from above,
Look up when time is slowing down.
Watch the children praying,
The falling leaves of golden brown.Have they ever been far away from a dearest friend?
I know every part so thrilled
At the end of season so alert.Hello, hello, hello. (x2)Singing from above,
Pick out the melodies of love,
Tell me does it feel good
To feel apart from having doubts.Have we ever been floating free in the ocean whence?
I know every part so thrilled,
At the end of season so alert.Hello, hello, hello. (x2)
Don't let go when they go
Hello, see how they go.It's coming from the trees,
Uncovering the last known fragility-
We could hide away,
Keep spinning 'til the day we are all mean to be.Hello, hello, hello. (x3)
