

Wild Tyme

Jefferson Airplane

It's a wild time
I see people all around me changing faces
It's a wild time
I'm doing things that haven't got a name yet;
I see love all the time
I need love, your love
I'm here for you an old time stay here, play here
It don't matter if it's rain or shine
I want to be with you, no matter what I do
What doesn't change is the way
I feel for you today
And it's new, so new
Make a place for yourself here
I see changes, changes all around me are changes Times just seem so good
I do know that I should be here with you this way
