

Monsters With Misdemeanors

Yellow Red Sparks

There's a chance we could meet
Under the likeness of summer
And there's a chance we could fall
Under the highlight of winter
There's a parked car that won't let me over
And there's one thing I'll regret, but you'd be the last

I'm just sick of the monsters that we chase everyday
I'm just sick of the monsters that we chase everyday
Yeah you know, you know

There's a wonderful plan
I hope to God we're in it (ready)
And I'll steer you one more time
Just to show the way
Well there's passing cars
That love to see me stranded try it again
And there are four things I'll forget
But you'd be the last

I'm just sick of the monsters that we chase everyday
I'm just so sick of these monsters that we chase everyday
Yeah you know, you know

And it goes to show
That darling you've known
And if I would, I could
But I've been there (here) before
And just like Rome
Darling we fall

I'm just sick, I'm just sick

You have lovely eyes and a lovely face
A cold embrace
We have lovely eyes and a lovely faith
A cold embrace
