

Supergirl

Unshine

There's so much to do
What ever it is you'll see it is you'll it through
 Baby it's your world
 Super girl
 Baby take your time
You'll figure it out with your beautiful mind
 I'm living in your world
 Super girl
 You've come so far in so little time
 Look how much you've grown
 I watch you struggle, I watch you try
 Try to make a life of your own
 So let the tears falling down your face
 Water your dreams, they won't go to waste
 There all yours baby
 There is so much do
 Whatever it is you'll see it through
 Baby it's your world
 Supergirl
 You made me believe in me
 Showed me something that I never saw
 You've forever teaching me
 You're a never-ending waterfall
 I'm in love....and your sacrifice
 So the ones you love have a better life
 And I thank you baby

 There is so much to do
 Whatever it is you'll see it through
 Baby it's your world
 Supergirl
 Baby take your time
You'll figure it out with your beautiful mind
 I'm living in your world
 Super girl
 With everything you do
 I'm always so amazed by you
I wouldn't want to live a day without my super girl
 There's much to do

Whatever it is you'll see it through
Baby it's your world
Super girl
Baby take your time
You'll figure it out with your beautiful mind
I'm living in your world
Supergirl
(There's much to do) You'll do it all
Whatever it is you'll see it through -yes you will
Baby it's your world
Super girl
