

# Semi-Normal

## Pacifier

You got right to ask a question  
Got the right to understand  
Got the right to choose your company  
And speak from where you stand All your babies born inside out  
Right on time, wrong way round  
We've come to tell what you are I'm not fucking all right  
I'm semi-normal  
All bark and no bite  
I'm semi-normal Got the right to build your freeway  
Got the right to force your plans  
Got the right to choose your destiny  
And milk it while you can All you mothers living in the clouds  
Look at you, you're upside down  
We have come to step on your world I'm not fucking all right  
I'm semi-normal  
All bark and no bite  
I'm semi-normal A seed that has been sown  
A dream you can't control  
In the west where we know best  
We move along without the rest I'm not fucking all right  
I'm semi-normal  
All bark and no bite  
I'm semi-normal I'm not fucking all right  
I'm semi-normal  
All bark and no bite  
I'm semi-normal
