Indoor

Tronic

There's a rumor spreading all around
We're on the way
To a change of setting homeward bound
Autumn day'Cause indoor we will light the fire
Light the fires of hope
Lost between the mountain and the sun
Caught the high emotion by the setting sunSo let's leave early don't be late
Don't delay
We expect you here at eight
Come what may'Cause indoor we will light the fire
Light the fires of hope
Lost between the mountain and the sun
Caught the high emotion by the setting sunLost between the mountain and the sun
Caught the high emotion by the setting sunWith song and dance we greet the dawn
Another day
The parting mass will soon be gone
We're on our way'Cause indoor we will light the fire
Light the fires of hope
Lost between the mountain and the sun
Caught the high emotion by the setting sunLost between the mountain and the sun
Caught the high emotion by the setting sun
