Hill country music hypnotize
Hallelujah, by and by
You can't help it if you try
Hill country music hypnotizeDelta woman, devil soul
Head for the hills back no more
Hill country go deep, deep and long
Make our music weep and moanCountry blues rhythm rhyme
Country woman move in time
Shake it low to the floor
Ain't no shame, want some moreEverybody screaming and shouting
Talking about some hill country, hill country
Everybody dancing and singing
Getting down to some hill country, hill country
Everybody walking and talking
Getting ready for some hill country, hill countryEverybody smoking and choking
Screaming and shouting and dancing and singing
And moving and grooving
Talking about the hill country, hill country
