

# Dance Called America

## Runrig

The landlords came  
The peasant trials  
To sacrifice of men  
Through the past and that quite darkly  
The presence once again  
In the name of capital  
Establishment  
Improvers, its a name  
The hidden truths  
The hidden lies  
That once nailed you  
To the pain  
They did a dance  
Called America  
They danced it round  
And waited at the turns  
For America  
They danced their ladies roundTo the candles  
Of enlightenment  
Once lit they say don't burn  
To turn the darkest room of suffering  
To a greater state of pain  
Don't tell me that's behind you now  
Don't greet me  
Don't meet your dying blind  
It's our very last stand together  
So let's sever  
No regrets  
They did a dance  
Called America  
They danced it round  
And waited at the turns  
For America  
They danced their ladies roundThere were days  
That once held confidence  
Strength of will and mind  
The camouflage that once washed your fathers  
Your sons and daughters time  
Another toungue

My love, my island  
You've gone international  
With all the praying men of God  
Who stood  
And watched it all go onThey did a dance  
Called America  
They danced it round  
And waited at the turns  
For America  
They danced their ladies round
