

Still Around

The Robert Cray Band

Go ahead and burn it down
I'm drunk and so is everyone else in this devil town
They won't let me turn around
To get one last look at my baby Well, she's still around
Well, she's still around
Well, she's still around
Well, she's still around Go ahead and build it up again
This city's just cemeteries end; forgotten men
In my only hopes to see you
And even if I never do Well, she's still around
Well, she's still around
Well, she's still around
Well, she's still around And I know what you're thinking
But that won't stop this drinking
It's the least I can do 'Cuz this life is anything but certain
When they close the final curtain
You'll get a glimpse of the truth 'Cuz you're still around
Well, she's still around
Well, she's still around
Well, she's still around Go ahead and burn it down
I'm drunk and so is everyone else in this devil town
