

Birds Fly (feat. Mr. Probz)

Hardwell

Ask me do I want this, I say do birds fly
Ask me do I feel it, I feel it tonight
If you ask me where the past is, I left it behind
And I'll just try to show you every side When you're a star, and you looking up at the stars
It just looks like Venus or Mars, lets make this universe ours
Gravity is holding us down, so lets turn this planet around
Oh don't you worry about how, can't nothin' stop us now If birds fly, so can I
I got a heartbreak dawn rising in my sky and
it is so beautiful, I just might cry watching birds fly Go on ask me, do I love you, I'll say does the sun shine
Ask me, and I'll tell you, you know I can't lie When you are a star, and you looking up at the stars
It just looks like Venus or Mars, lets make this universe ours
Gravity is holding us down, so lets turn this planet around
I don't you worry about how, can't nothin' stop us now If birds fly, so can I
I got a heartbreak dawn rising in my sky and
it is so beautiful, I just might cry watching birds fly If birds fly, so can I
I got a heartbreak dawn rising in my sky and
it is so beautiful, I just might cry watching birds fly Fly, fly, fly, fly (hmmm)
Just might cry watching them fly
Fly, fly, fly, fly (woah)
While I touch the sky
Fly, fly, fly, fly (woaah)
While I touch the sky
Fly, fly, fly, fly (sky) Fly, Fly If birds fly, so can I
I got a heartbreak dawn rising in my sky and
it is so beautiful, I just might cry watching birds fly
