

Eighteen

Hi Fashion

Check it out My engine's revin'
This engine's revin'
[x3] Let's talk about it [Wow] [Verse 1] I want you to drop me like you would if I was eighteen
Hit the gas the way you only could if I was eighteen
Fiddle it and diddle under the hood like I was eighteen [Hook] Take it off and let's do this [x2] What you
drivin' with?
Show me what you got-got-got
Don't be scared to park it here
You know you got me hot-hot Ain't got time for first base
Gotta pick up the pace
'Cause I'm gonna get up in your face and eighteen all up in your space [Break] Eighteen... Hot Rod [x2] [Verse
2] In the park
In the car
In the dark
I'll take you on a park and ride [Park and ride] Wanna get with this-this?
Ain't nobody else's business
Treat me like I'm eighteen
I don't need a witness Don't take me out to the movies tonight
I don't need no icecream or dinner to delight
Don't hold the door or be on your best behavior [Repeat Hook] Don't need to ask for permission for me
You have got all the lights and you need to proceed In the headlights
Take your top down
I wanna see you You're gonna drive this thing into the ground [Wow] [Repeat Hook x2] Hot [x6]
