

# Hi Low

## Starflyer 59

I've been thinking since our meeting there's a lot to cross  
You turn the tables cause you're able so I'm at a loss  
Cause I was feeling high  
Now I'm feeling low  
I was feeling so high  
Now I'm feeling low I've been thinking since our meeting there's no need to talk  
It was in the air but fair is fair, I think I lost the toss  
Cause I was feeling high  
Now I'm feeling low  
I was feeling so high  
You've got me feeling low The way it looks I'm right on pace  
To fall apart like some weirdo  
Who's always up to something and always on pace  
To turn into some weirdo  
Cause I was feeling high  
Now I'm feeling low  
I was feeling so high  
You've got me feeling low
