Loco

David Lee Murphy

Hey, the Hula girls on the shot glass
All we need's a little salt and lime
We can plug in the hot pepper lights and pretend
That we're livin' on Key West time
I can run to the store an' get some charcoal
Buy a tikki torch an' fire up the grill
The whole town wants to know when I'm gonna grow up
But you know I never will
Yeah, I might be a little bit loco
But it keeps me from losin' my mind
Oh, but half insane, that's okay, babe
A little bit crazy's all right
There's nothin' wrong with a little excitement
No, it makes me forget about work
'Cause I live by the rule that everything's cool
Just as long as nobody gets hurt
Hey, I feel like I'm on vacation
Honey, you say the word and we'll go
'Cause you're getting to me in those cut off jeans
And that T-shirt from Sloppy Joe's
Yeah, I might be a little bit loco
But it keeps me from losin' my mind
Oh, but half insane, that's okay, babe
A little bit crazy's all right
Yeah, the deep end might be so close
Oh, that I'm hangin' on for dear life
Yeah, I might be a little bit loco, baby
But a little bit crazy's all right, that's right
Yeah, I might be a little bit loco
But it keeps me from losin' my mind
Oh, but half insane, that's okay, babe
A little bit crazy's all right
Yeah, the deep end might be so close
Oh, that I'm hangin' on for dear life
Yeah, I might be a little bit loco, baby
But a little bit crazy's all right
Yeah, I might be a little bit loco
But it keeps me from losin' my mind
Well, I might be a little bit loco, baby

But a little bit crazy's all right, you're crazy, baby
Might be a little bit loco, baby
But a little bit crazy's all right
