

Take Me Back (deja Vu)

Van Halen

I though I saw you from a distance
I swore I'd found you once again
Touched on that feeling for an
Instance
Could not recall just where or when
Oh no
Some desert island off morocco
We had a love so hard to find
Oh so full of life, so free and easy
Another place, another time, oh
Take me back
I want to be there with you
It happened just like that yeah
Slip in a dream or two
Come on, take me back
Oh, deja vu
One soul, one mind
One light that shines
One love so fine
Oh, come on, take me back
Some call it fate, some superstition
Some call it luck, it's all the same
Just one of the mysteries of creation
Somethin' you feel but can't explain
Oh, take me back
I want to be there with you
It happened just like that, baby
I've fallin' deep into
Oh girl, come on
I want you to take me there
Oh, I know, I know, I know, I know...
Come on, take me back, baby
I swear I've been with you
It happened just like that
Send me a dream or two
Come on take me back
Oh, deja vu
