

A Little Late

Skating Polly

doctor doctor
brother brother
father mother
father mother
if we're without brother
then we'll be bothered for the wait doctor doctor
brother brother
father mother
father mother
if we're that bothered
then we'll be bothered till the date, till the date you make the sun rise when the sun won't rise
you make the sun bright at night
and if I'm not thinking
really really greatly
you'll let the sun rise twice you'll make the creeps hide
when the creeps come alive
you make the creeps run away
what is a nightmare
of a living monster
what does a nightmare mean chase away the thoughts that make you hate
cause hate does not create
and hate at best will just keep you
a little late
a little late chase away the thoughts that make you hate
cause hate does not create
and hate at best will just keep you
a little late
a little late doctor doctor
brother brother
father mother
father mother
if we're that bad then we'll be bothered for the wait
until the date
you make the sun rise when the sun won't rise
you make the sun bright at night
and if i'm not thinking
really really greatly
you'll let the sun rise twice you make the creeps hide
when the creeps come alive

you make the creeps run away
what is a nightmare of a living monster
what does a nightmare mean chase away the thoughts that make you hate
cause hate does not create
and hate at best will just keep you
a little late
a little late if you slip down the ice
I'm not following you
cause you're the one
who requested those black shoes
I think you're gonna be the next man on the moon
and you can't even stick to an original tune chase away the thoughts that make you hate
cause hate does not create
and hate at best will just keep you
a little late
a little late you make the sun rise when the sun won't rise
you make the sun bright at night
and if I'm not thinking
really really greatly
you'll let the sun rise twice
