Almost Over (Getting' Over You)

Billy Gilman

I'm almost goin to the movies
And hangin out with my friends
I'm almost seein somebody new
I'm almost over getting over youI'm almost coming to my senses
But still a little out of my mind
I'm almost happy but still a little blue
I'm almost over getting over you(Bridge)I know our love has ended
and we should be apart
but how can you live with
and almost mended broken heart(Bridge)I'm almost sleepin like a baby
I almost make it through the night
I'm almost ready to accept it's really true
I'm almost over, can't believe it's over
I'm almost over getting over you
