

# Winning With You

Dave Hollister

Girl I'm winning with you  
I would never trade you  
Girl I'm winning with you  
Girl I'm winning with you  
What we have here is something special  
Something that I'll cherish and I never let go  
Couple years and now I'm still in love with you  
Still turned on by the sexy things that you do  
Even though we've been through some ups and downs  
Even when my paper was low you still stuck around  
That the reason why you always be on my team  
It's unexplainable the joy that you bring  
Girl I'm winning with you  
I can't lose with you on my team  
I would never trade you  
There's no other player that I need  
Girl I'm winning with you  
Never leave my side  
When I'm out of time  
You never let me down  
And that's the reason why  
Girl I'm winning with you  
In the off season we get even stronger  
Build our love so we can last longer  
A perfect season isn't odd bu I'm asking for  
Just the fact you give a hundred things so much more  
Keeping this thing together  
We do all we can  
We'll keep giving back  
Long as we both understand  
It's gonna take the two of us to win it all  
I'm with you while we stand even if we fall.

Girl I'm winning with you  
I can't lose with you on my team  
I would never trade you  
There's no other player that I need  
Girl I'm winning with you  
Never leave my side when I'm out of time

You never let me down  
And that's the reason why  
Girl I'm winning with you  
(Rap)  
Girl I'm winning with you  
I can't lose with you on my team  
I would never trade you  
There's no other player that I need  
Girl I'm winning with you  
Never leave my side  
When I'm out of time  
You never let me down  
And that's the reason why  
Girl I'm winning with you  
I can't lose with you on my team  
I would never trade you  
There's no other player that I need  
Girl I'm winning with you  
Never leave my side  
When I'm out of time  
You never let me down  
And that's the reason why  
Girl I'm winning with you
