

# How Strange It Is

Xenia Rubinos

People give names to planets  
Numbers to time  
Measure the distance between before now and after  
They draw lines across land masses and they call them countries  
They fight battles  
They kill  
They're born  
They die  
They have ideas  
Invent machinery  
Create history  
All of this to understand just how to be, but to me...It's strange  
How strange it is  
I wonder why  
They race us like a cat  
They're running all over the floor  
And all over the map  
Oh when you gaze it  
When you gave it  
While you struggle  
I'm just star gazing  
Why do shadowboxing?  
I call over  
Window winnin' no vino  
Window why the...  
Wash wash them windows  
Wash them wash them well  
Now wash them wash them windows  
Wash them while you will  
It's strange  
How strange it isHow strange it is to be in this world  
How strange it is to be in this world  
How strange it is to be in this world  
How strange it is to be  
To beMmm why to go  
Where do we go?  
We're grinning like a game  
I'm winning like a flame  
I wish open

I win like a cat  
I sneak up the wall  
They cannot find I'm strange  
How strange it is How strange it is to be in this world  
How strange it is to be in this world  
How strange it is to be in this world  
How strange it is to be  
To be  
To be
