

Christmas Day

Mxpx

She waits and prays
Because it's almost Christmas Day
A little faith can always go
Such a long way There's something
About the way you spend your Christmas
There's something about the way you care
There's something about the way you kiss A little goes a long way
A little goes a long way
A little goes a long way
A little goes a long way
On Christmas Day A little goes a long way
A little goes a long way
A little goes a long way
A little goes a long way
On Christmas Day There's Christmas cheer
Enough to last you three whole years
There's the mistletoe
If you were me then you would know But there's something
About the way you spend your Christmas
There's something about the way you care
There's something about the way you kiss A little goes a long way
A little goes a long way
A little goes a long way
A little goes a long way
On Christmas Day A little goes a long way
A little goes a long way
A little goes a long way
A little goes a long way
On Christmas Day The snow outside covers the ground
And as I watch it falling down
I think of her so far away And how much I like to be with here
On Christmas Day, on Christmas Day
On Christmas Day, on Christmas Day 'Cause a little goes a long way
A little goes a long way
A little goes a long way
A little goes a long way
On Christmas Day A little goes a long way
A little goes a long way
A little goes a long way

A little goes a long way
On Christmas Day
