

# Abandon

## Backyard Babies

I thought release the endless pain  
I think it'll never be the same  
But I didn't cause the summer rain  
I don't wanna see you here again  
Again, again, never again, never again I made a move, I thought was right  
I had a chance to stop the fight  
But I looked away and to the side  
I never thought I'd say it'll be alright  
Again, again, never again, never again 'Cause I'm far away from everything we knew  
But all I see reminds me so 'bout you  
Face to face, I'm a hopeless case  
We go on and I pretend 'cause I'm far away I don't wanna live to reverse my life  
I had it coming 'cause of my lies  
I'm not about being number one  
But I'm so afraid that I'm right and you're wrong 'Cause I'm far away from everything we knew  
But all I see reminds me so 'bout you  
Face to face, I'm a hopeless case  
We go on and I pretend 'cause I'm far away Again, again, never again, never again  
Again, again, never again, never again 'Cause I'm far away from everything we knew  
But all I see reminds me so 'bout you  
Face to face, I'm a hopeless case  
We go on and I pretend 'Cause I'm far away from everything we knew  
But all I see reminds me about you  
Face to face, I'm a hopeless case  
We go on and I pretend, I'm far away Again, again, never again, never again
