

# My Shine

## Childish Gambino

Runnin' through the moment as the sun goes down

And all I ever wanted was to hear that sound

I stunt hard

I make it work, yeah

I make it work, yeah

I make it work, who

I live large

I make it work, yeah

I make it work, yeah

Yeeaah

Childish Gambino, lame niggas never heard of it

Sick Boi is the crew, fuck these niggas with a dirty dick

When these mothafuckas gonna understand I'm serious?

I'm hard in the paint, like I fuck her on her period

James Dean swag, leather jacket, white t-shirt

Rolled up sleeves, nigga lookin' like a greaser

Word is born, baby, my dictionary's in labor

Listen to the Culdesac and know that was an ultimatum

Man, why nobody wanna admit they like me just a little bit?

Won't be on the freshmen list, guess I'll just keep spittin' shit

Never be the rapper with \$600 shades

No iced-out chain, Rod Lavers all day

I was hopin' they would see me just for me, dope rhymer

They do me like my first house, no co-signer

See you usin' qualifiers, you don't even know

"I guess he good for a rapper who on a TV show"

Even though, I was rappin' back when Lance had chemo, ho

Even flow, Pearl Jammin' niggas can't leave me alone

I keep a bone for these girls who liked me back when green was low

Feel me, though, DVR my thoughts and make your TiVo grow

Runnin' through the moment as the sun goes down

Starlight, starlight

And all I ever wanted was to hear that sound

All night, all night

But it's all for you to prove it

Keep on movin', keep on usin'

My shine, my shine, my shine

Ooh, take me higher, higher, higher

Ooh, take me higher, higher, higher  
Gambeezy make it work somethin', let me check the syntax  
Don't add an eezy to my name, 'cause it has never been that  
Aladdin on you fuckers, prince of the game from street rat  
Dudes fall off, too steep like tea bags  
Steady movin', don't worry about where I'mma be  
'Cause I'mma be on these tracks like indie girls on Amelie  
Honesty, I'm rappin' 'bout everything I go through  
Everything I'm sayin', I'm super sayin' like Goku  
Fuck nerdcore, fuck backpack  
Fuck rap cool, I make cool rap  
I make music for wack blacks to blast back  
In fact, I swear the track I lie on's my last track  
Runnin' through the moment as the sun goes down  
Starlight, starlight  
And all I ever wanted was to hear that sound  
All night, all night  
But it's all for you to prove it  
Keep on movin', keep on usin'  
My shine, my shine, my shine  
Runnin' through the moment as the sun goes down  
Starlight, starlight  
And all I ever wanted was to hear that sound  
All night, all night  
But it's all for you to prove it  
Keep on movin', keep on usin'  
My shine, my shine, my shine
