

# Cherry Red

## Lime Spiders

Strange things goin' through my head, oh  
Crazy things that I think she said  
Slides so slinky that it's gotta be real  
She just wanna know how to feel  
Cherry red, cherry red  
She just wanna feel cherry red  
Cherry red, cherry red  
She just wanna feel cherry red  
This town of killer tits is doing me in  
Tried to leave once wanna do it again  
But this one little thing's such a thoroughbred  
I'm addicted to the feel of her cherry red  
Cherry red, cherry red  
Addicted to the feel of her cherry red  
Cherry red, cherry red  
I wanna keep thinkin' 'bout cherry red  
Whip out a bottle of your favorite rave  
I think you better tend to your cherry crave  
Ain't nothin' stupid what we're talking about  
Take a little twist and then you pour it all out  
Cherry red, cherry red  
Think you better give me your cherry red  
Cherry red, cherry red  
I think you better give me that cherry red
