

# Demons Surround Me

## Bizzy Bone

Demons surround me all the time  
Demons surround me all the time  
Demons surround me all the time  
Now pick up your psychic line  
Now pick up your psychic line  
Demons surround me all the time  
Demons surround me all the time  
Now pick up your psychic line  
Now pick up your psychic line  
Nobody believes, nobody believes  
Nobody believes me, even my baby girl  
See I was raised up on that ouija in my crazy world  
Better take it easy  
Outta my mind, outta my mind  
Outta my mind, outta my brains, brains  
7th Sign time, in a line, shine  
Fin to bye-bye, die die, bang bang  
Hit 'em with that woo-woo  
And that flip-flop flown-n-low  
Steady as we roll, maybe you don't know, oh  
Get away for safety, in a coma like state, invade me  
Everyone say, "Hey, hey, he's crazy"  
Premenitions, kick pushin' daisies  
Wait, they chase to slay me  
Paranoid, mortal to the paranormal, jumpin' out portals  
Kinetical energy formal in the global get warmer  
Mormons may mourn, may Messiahs be born  
Torn in the purgatory, sworn to violence, silence, word my bond  
Get ya story on, call me, saw me in the army gatherin' in harmony  
Hardly in all we be so salty  
Demons surround me all the time  
Demons surround me all the time  
Now pick up your psychic line  
Now pick up your psychic line  
Talk to the walkin' dead, crossroads, call on the Rev., lost souls  
And I'm off in a coffin' tossin' my memoirs, oh no  
In the closet, come open the door, what do you see? A funeral  
Usually closest to kosher 'til I see some loved ones, don't go  
Get it crucial, pick up the psychic line

Future to before time in the sinister mind of spiritual wicked  
Intertwined with weak souls, come kick it  
Written, rewind, get it, look out, hit it, rise  
Dig it, wig out, feel it, ride  
Mimic, die, nigga, fly, boom bye-bye  
My kind in time, 7th Sign, 7th Sign  
(7th Sign)  
Time after time get mine, gon' get mine  
Pick up the phone line, pick up the phone line  
Ready for truth on the loose?  
Got a dime or two and I'm liable to tell you  
Only if you know, wooo, he flew right bye you, true  
Demons follow and resume from the womb in the tomb  
I fool you, boom, boom, boom  
B-b-b-boom, boom, boom, boom, boom, boom  
Demons surround me all the time  
Demons surround me all the time
