

Toi toi toi

TEEN

Toi toi toi
You only have one mode of employ
A science to a skill you know you've tried
Instead of finding comfort in the blind Adorn yourself in wraps of yore
Taser them with blasts of more
Signs you know they'll understand
Guide them with your knowing hand Toi toi toi
Good luck, go and play killjoy
Toi toi toi
Good luck, go and play killjoy
Toi toi toi
Good luck, go and play killjoy
Toi toi toi
Good luck, go and play killjoy
Hawk eye got your eye on
Hawk eye got your eye on
Hawk eye got your eye on
Hawk eye got your eye on
Hawk eye got your eye on
Hawk eye got your eye on
Hawk eye got your eye on my prize
(It's crowded, it's too crowded in here) Long hair you're not convincing anyone
You're not convincing anyone
No, no
Long hair you're not convincing anyone
You're not convincing anyone
You're not convincing anyone
Play louder than everybody trying to trick yourself
Trying to trick yourself
Just to trick everybody else
Play louder than everybody trying to trick yourself
Trying to trick yourself
Just to trick everybody else Watching, waiting, waiting, waiting
Hawk-eyed, crazy, crazy, crazy
Steal from the crowd, the crowd, the crowd
You're so proud, so proud, so proud Toi toi toi
Good luck, go and play killjoy
Toi toi toi
Good luck, go and play killjoy

Toi toi toi
Good luck, go and play killjoy
